RETAIL SOLUTIONS

Signage and communication solutions from "front" to "back"

Retail moves fast. Keep everyone up to speed. With products, pricing, and trends changing all the time, your customers and your workforce have to stay on top of it all. Make information accessible to the people who need to see it, with communications and workplace management solutions for retail.
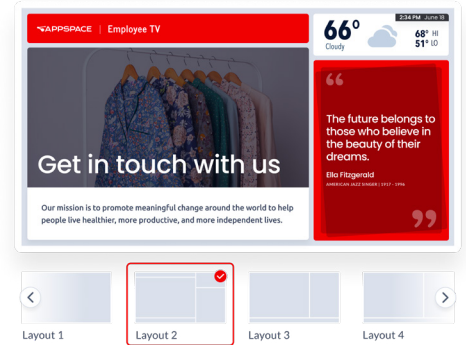

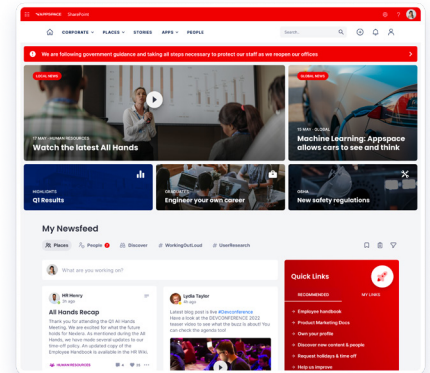

Back of House

Digital Signage For Your Office or Warehouse

Broaden your reach by tapping into digital signage. From company updates and news, product launches, and everything in between, display it all on your digital screens. Update in one location and launch to thousands of devices.

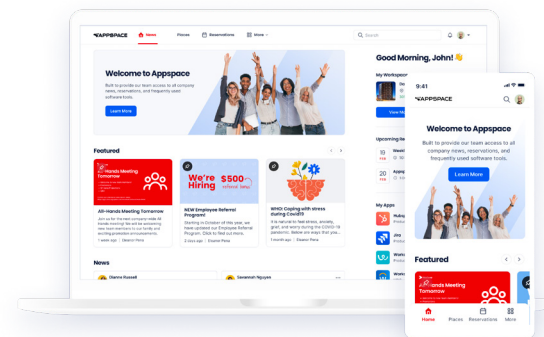

Retail Intranet

Create a faster flow of information between your teams. Built on SharePoint, Appspace Intranet helps you quickly and easily find things like current promotions, the latest updates from the CEO, or information about corporate initiatives. Frontline, corporate, or back office – include every employee in your company culture.

Employee App

Rally your frontline workers around company goals and connect them to the latest company news and updates. Use our Microsoft Teams app to embed the full functionality and access right within Teams. Plus, go beyond communications. Employees can book workspaces and building access, and stay informed and organized, from wherever they are.

## Digital Signage

The customer experience is everything in retail. Share your latest products, special offers, and customer service information – and make an impression with in-store digital signage.

Wayfinding & Kiosks

Give your customers the power to answer who, what, and where with interactive kiosks. View maps, get directions, find people and more.

It's all part of the Appspace platform

Intranet	Employee App	Digital Signage	Content	Space Reservation	Visitor Management	Wayfinding
