⌄APPSPACE

INTEGRATIONS

Supercharge your tech stack

Create the ultimate workplace experience by connecting Appspace with your favorite apps and software.

Building an awesome workplace experience requires an ability to connect and enhance the technology you and your team use every day. To achieve this, the freedom to choose the right combination of products needed to get the job done is important.

That's why we allow you to unite your unique tech stack by integrating with the software and hardware you know and love. Below is just a sample of the countless integrations we offer across our workplace experience platform.

Appspace Integrations

Calendars

Connect your third-party calendar provider with Appspace to enable next-level space reservation capabilities including maps, room scheduling, desk hoteling, and bi-directional syncing so it's always up to date.

Microsoft 365

Google Calendar

Conferencing

Extend the real estate of your corporate communications by displaying digital signage in your meeting rooms while hardware is in idle mode. Appspace also integrates with room sensor hardware to display things like air quality and occupancy.

Microsoft Teams

Emergency Alert Systems

Utilize your existing emergency alert system to automatically broadcast critical information across all Appspace-enabled devices to help ensure everyone's safety.

singlewire software
ALERTUS
RAVE MOBILE SAFETY
everbridge

Enterprise Chat

Publish corporate communications to the messaging app of your choice. Plus, you can embed the Appspace Employee App right in Microsoft Teams, so your employees can connect and engage without having to jump from screen to screen.

vbrick
Haivision
MEDIASTAR MEDIASTAR SYSTEMS
exterity
TRIPLEPLAY
INTEVI INTELLIGENT VIDEO SOLUTIONS
You Tube

SCIM/HRIS

Connect your SCIM or HRIS systems to Appspace to easily onboard multiple premium users at a time, helping to facilitate and streamline the creation of new users, groups, and permissions.

Azure
okta

Custom Integrations

Don't see all of the third parties you use? No need to fret! Our Enhanced Services team has worked with numerous clients to develop custom cards and integrations that support and enhance their existing tech stack.

The List Goes On

The logos listed above represent just a small fraction of all the integrations we provide. We're always developing new out-of-the-box integrations that foster engagement and strengthen the employee experience.

We invite you to reach out to us to learn how we can unite your software and hardware to create the ultimate workplace experience.
